An appeal from the Chief Minister

Be alert

Be safe

- Government of West Bengal appeals to all those arriving from other countries, or from other states, to confine themselves inside their own houses for 14 days.

- Keep yourself isolated from others. Do not allow others to use your personal belongings. This is necessary for you as well as others’ well-being.

- Take care, take rest. Consult your doctor in case of fever, respiratory problem or any other symptom.

- Those coming from abroad or other states, are once again requested not to go outside their houses for 14 days. Start your outdoor activities only after that.

- Don’t be afraid. Don’t spread panic.

- People of the State are requested not to take law into their own hands, whatever the situation may be. In case of any untoward situation, inform local administration and police.

- Take care and stay well.

Issued by Government of West Bengal in public interest.

Mamata Banerjee
